Clearly identify the specific information that you believe needs correction. The Investigation Number IN-2001-532-IN3387 is listed as having a source of enforcement as being "Compliance Review" in the Safety Management SEA Report. The enforcement action should be "Inspection".

Specify, in detail, why you believe the information fails to meet standards of integrity, utility, and objectivity. The data is inaccurate.

Specify your recommendations for what corrections DOT should make to the information in question and reasons for believing that these recommended corrections would make the information consistent with both the DOT's and OMB's information quality guidelines.

Recommend the the source of enforcement and corresponding weighting process changed to the true and correct source which was a roadside inspection.

In a case where the Department has not designated a report, data set, or document as being subject to these information quality guidelines, and you believe it should be, you should specify why the information should be subject to the guidelines; and include any documentary evidence you believe is relevant to your request (e.g., comparable data or research results on the same topic).
